BOOMERSHINE BRIDGE
(Manning Road Bridge)
Spanning Twin Creek at Manning Road
Farmersville vicinity
Montgomery County
Ohio

HAER No. OH-78

PHOTOGRAPHER: (Views 1 thru 16) John Gerhardstein February 1991

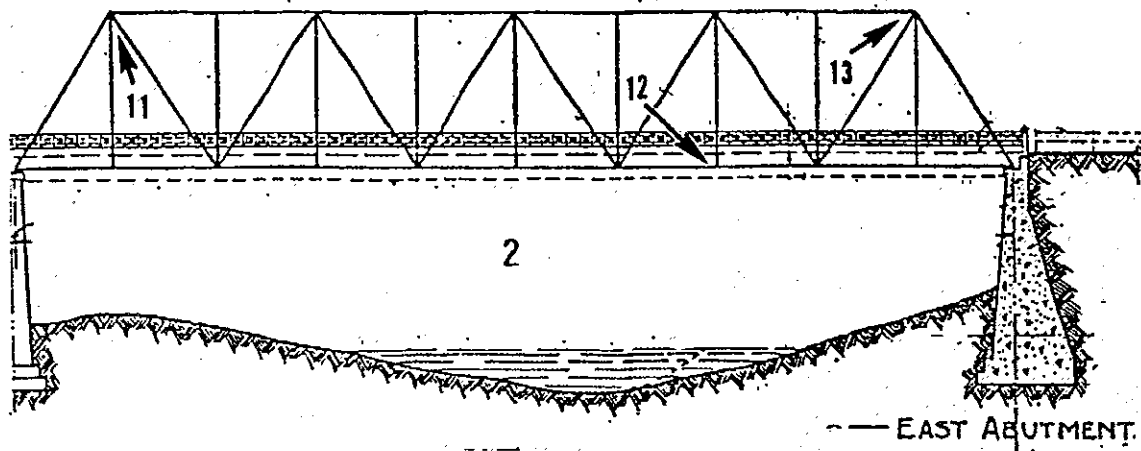

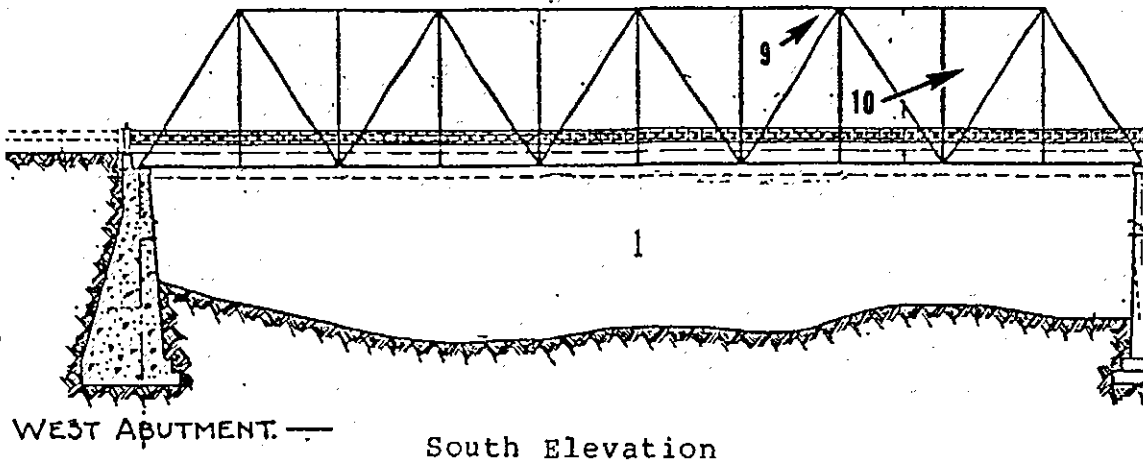

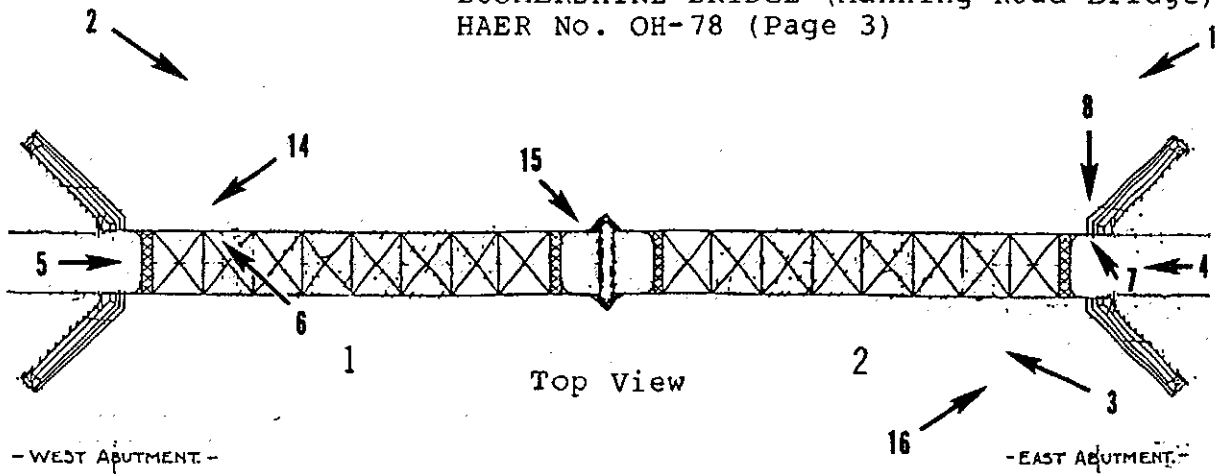

- OH-78-1 General view of bridge in its setting. Looking from northeast to southwest.
- OH-78-2 Overall view of north elevation. Looking from northwest to southeast.
- OH-78-3 View of south elevation, east span. Looking from southeast to northwest.
- OH-78-4 Looking thru deck from east to west.
- OH-78-5 Looking thru deck from west to east.
- OH-78-6 View of decorative rail. Looking at west span, connection of 2nd and 3rd panel, north side.
- OH-78-7 View of newel post and decorative rail. Looking at north side, east portal end of east span.
- OH-78-8 Detail of portal end connection to lower chord with bearing plate underneath. Looking at east end, north side, east span.
- OH-78-9 View of connection to top chord, diagonals, verticals, lateral bracing, struts and spandrels. Looking at south side, east end of west span. This is typical of all diagonal and vertical connections.
- OH-78-10 View of end portals, top chords, diagonals, verticals and strut connections. Looking from east span to east end of west span.
- OH-78-11 View of portal detail at middle of bridge. Looking at junction of west and east spans, north side.
- OH-78-12 View of vertical lattice connection to lower chord. Looking between 7th and 8th panels, east span, south side.
